COMMUNICATION REGARDING
PATENT TERM ADJUSTMENT

Sir:

The applicants received a Notice of Allowance dated February 4, 2008, in the above-identified patent application. The determination of Patent Term Adjustment (PTA) Under 35 U.S.C. 154(b) indicates that the patent for this application would be eligible for 212 days of patent term adjustment. For the record, applicants believe the patent is not entitled to any days of PTA.

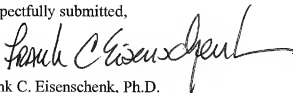

A review of the PAIR record shows an apparent 254-day Patent Office delay pursuant to 37 CFR §1.702(a) (failure to take certain actions within specified time frames). However, the subject application is a 35 U.S.C. 371 application that did not fulfill the necessary national filing requirements until May 18, 2006 (see attached copy of the Notice of Acceptance). Therefore, according to 37 CFR §1.702(a), the Patent Office was not required to issue a notification under 35 U.S.C. §132 until July 18, 2007. A review of the PAIR record shows that a Restriction Requirement was mailed on March 29, 2007, well within this 14-month time frame. Thus, applicants assert that

the 254-day Patent Office delay is incorrect. Further, the total applicant delay in this application was 42 days, as correctly shown in the PAIR record.

Applicants respectfully request that the PAIR record be reviewed and corrected to ensure that the granted patent will indicate the correct Patent Term Adjustment.

Applicants do not believe there should be a fee associated with this Communication. But, the Commissioner is hereby authorized to charge any fees under 37 CFR §§1.16 or 1.17 that may be required by this paper to Deposit Account No. 19-0065.

Respectfully submitted,

Frank C. Eisenschenk, Ph.D.
